HARRY S. KELLEY,
School Treasurer.

I hereby certify that I have examined the treasurer's accounts and find them correctly cast and supported by proper vouchers.

ELIZABETH N. SHAW,
February 5, 1921. Auditor.

REPORT OF SUPERINTENDENT OF SCHOOLS.

To the School Board of Chichester:

I hereby submit to you and through you to the citizens of Chichester my sixth annual report as superintendent of schools.

All schools of the town completed thirty-six weeks during the year ending August 31 as required by law. The increase in length of year reflected itself in amount and quality of work done. It has been our aim throughout the year to furnish all children of the town with a certain definite amount of knowledge and training which is considered by educators as essential for social usefulness and future growth, to give every child an equal opportunity to develop his native abilities, to draw out his qualities of judgment, aesthetic appreciation and respect for authority. We have tried to teach "thrift" by practice of economy in books and supplies and also by eliminating waste of time and energy. We have eliminated some of the war activities and rejected other plans of well-meaning propagandists, and have concentrated our efforts on the so-called fundamentals, "reading, writing and arithmetic," and the expression of clear, pure English in composition and conversation.

At the close of the summer term five pupils passed examinations for high school: three from Kelley's Corner, one from Bear Hill, and one from the Center. Of these three entered Pittsfield High and one entered Tilton Seminary. Also one from Horse Corner entered the Parker School, Concord, at the beginning of February term of this year.

MEDICAL INSPECTION.

Dr. Lewis D. Gilmore submitted the following report:

Number of pupils examined 83. Of these the following cases were found and reported to parents by examiner:

Malnutrition,	1
Defective vision,	27
Defective hearing,	3
Nervous disease,	2
Cardiac disease,	6
Pulmonary,	2
Skin disease,	6
Pediculosis,	2
Orthopedic defects,	2
Defective teeth,	57
Hypertrophical tonsils,	47
Adenoids,	13
Enlarged glands,	16
Unvaccinated,	22

The cases of unvaccinated were attended to as soon as possible. Treatments in many cases have been secured, an exact report of which cannot be given until next examination has been made.

REPAIRS.

In accordance with the constructive policy adopted two years ago of putting one usable schoolhouse in condition to meet the state minimum requirement, the Bear Hill House received the following repairs: the seats rearranged so the left of pupils border the sunny side of the building, new windows inserted to meet the lighting requirements, a new building for toilets with cement vaults, ceiling and walls cleaned and painted. At the Center and Kelley's Corner the ceiling and walls were painted.

NEEDED REPAIRS.

At Kelley's Corner, there is need of new seats, additional lighting, new toilets, and exterior of building painted. At Pine Ground, there is need of additional light, closing of front windows, new blackboards and painting of interior of building. At new Dover, there is need of additional light, new blackboards, repainting of ceiling and walls.

APPROPRIATIONS.

Judging from the shortage of teachers, from the cost of books and supplies, from the cost of fuel and living expenses, the financial budget for next year will call for about the same amount as this year.

We trust you will make ample appropriations for the ensuing year and allow no educational retrenchment. Remember that the future prosperity of your town depends largely on your appropriations for education.

In conclusion, I wish to express my appreciation of the assistance of the school board, of the co-operation of parents and teachers and the financial support of the citizens.

Respectfully submitted,

FREDERICK T. JOHNSON,
Superintendent of Schools.
